KUBA

NAVRÁTIL

Hi! How are you? Thanks for opening my resume and giving me a chance. I'm sure you won't regret that !

WHO AM I?

I am a 29 yo guy born and raised in Prague and I'm still living here. Although I would like to live and work abroad again for some time in near future. I am cheerful, smart (relatively), loyal, creative, funny (even more relatively), friendly, responsible and enthusiastic guy.

I ALSO LOVE LANGUAGES

Czech is my native language, but somehow it's more natural for me to use English, even in my thoughts. 3 years ago I started learning Spanish and I love this language a lot. I studied German at school but I've never really used it and I know basic Italian and a bit of Swedish too.

MY EDUCATION

2013

Jönköping University (JIBS)
Erasmus with focus on marketing
Jönköping, Sweden

till 2015

University of Economics in Prague
Corporate economics and management,
Minor in marketing, Bachelor & Master,
Prague, Czech Republic

till 2009

Gymnázium Nad Alejí
Secondary grammar school
with focus on languages
Prague, Czech Republic

頂点

WHAT I LOVE?

Digital art and everything creative, music, beer, snowboarding, books, traveling and discovering the world, my friends, Prague, movies & tv shows, LEGO, exotic food (especially Thai), board games, cycling and my family.

WHAT CAN I DO?

I think I'm pretty good at learning by doing. That's how I've learned to work with all these programs and to code, by following tutorials and experimenting. Oh, and the Gs stands for Google SketchUp. I've never really got into 3D design and professional renders (yet!), but when I need something, SketchUp is usually good enough. { } means HTML and CSS, but I think that should be obvious...

MY WORK EXPERIENCE

Freelance

I've been working on side as a graphic designer and coder for many clients, but mainly for e-shop owners, who wanted to spruce up their websites.

till 2018

Chefparade s. r. o.

I've been doing a lot there... From graphic design and coding through emailing and social media to anything IT and basically solving any problem that occurred.

till 2015

Czech University of Life Sciences

I was doing graphic design, organising events and also doing basic admin work at International office for Erasmus program.

till 2012

Part-time jobs while studying

Quality control in cross-dock centre, working in a wine store etc.
